## HISTORY OF THE REGATTA

The Head Of The Charles® Regatta, the world's largest annual two-day rowing event, was first held on October 16, 1965.

The race was established by Cambridge Boat Club members D'Arcy MacMahon, Howard McIntyre, and Jack Vincent, with the assistance of Harvard University sculling instructor Ernest Arlett. Arlett proposed that a "head of the river" race, similar in tradition to races held in his native England, be held on the Charles River. There were nearly 300 competitors in the first Head Of The Charles Regatta, competing in singles, fours, and eights.

Over the past 47 years, the Regatta has grown tremendously. Today, nearly 9,000 rowers (more than 1,900 boats) from 650 universities, schools, and rowing clubs representing 17 nations compete in 61 different race events. With the generous support of our sponsors—such as Brooks Brothers, EMC, and Delta Airlines—we produce a world-class event that attracts more than 300,000 spectators.

The Head Of The Charles Regatta is managed by the members of the Cambridge Boat Club with assistance from more than 1,400 volunteers, numerous local schools and rowing clubs, and the Massachusetts Department of Conservation and Recreation (DCR). The board of directors of the Cambridge Boat Club appoints three trustees to oversee the management of the race as well as the ten-member Race Committee that meets year-round to oversee the operational and logistical details of the event.

In 1991, the trustees appointed Frederick V. Schoch Executive Director of the Regatta, and he continues to spearhead the event. Schoch, a former secondary school English instructor and rowing coach for many years at Princeton, the U.S. Naval Academy and Georgetown, founded the Challenge of the Hudson regatta in New York. He also has been an active member of the U.S. Rowing National Team Coaching Staff.

The Cambridge Boat Club, located at Gerry's Landing in Cambridge Mass., serves as headquarters for the event. It was established in 1909 for the purpose of encouraging boating and yachting, and as a place for social gatherings for its members. The club maintains an active membership of more than 300.

## FREQUENTLY ASKED QUESTIONS

### **Where does the Head Of The Charles start and finish? How long is it?**

The race starts near Boston University's DeWolf Boathouse and finishes approximately 3-miles (4,828 meters) upstream at Herter Park (aka Artesani Park) on Soldier's Field Road in Brighton.

### **What does a "Head" race mean?**

Head races are a class of regattas generally three miles long, with boats racing against the clock. Winners of each race receive the honorary title of "Head of the River" or, in this case, "Head Of The Charles."

### **How does a boat win a Head race?**

Winners are determined by time. The boat that rows the course clocked at the fastest time (including any penalties) wins their event. The quickest rowing time wins (i.e., not the first boat to cross the finish line).

### **How is each boat's time determined?**

Each boat start sequentially approximately fifteen seconds apart, and a start time is noted for each and every boat as it crosses the Start Line; the clock stops for each boat at the Finish Line. The exact time is recorded the instant each boat crosses the Start and Finish. The final Race Time is stated in minutes, seconds and thousandths of a second (ex: 18:46:228).

All boats' preliminary times are posted generally within 15 minutes after the conclusion of each event.

### **What is the best way to follow a Head race?**

Watching a head race is unique because boats start in single file, one after another, at the start line (remember, the winners are determined by time!). As boats are rowing the course, one boat can pass another boat—which means the passing boat is faster.

You can follow a particular boats' progress by noting its "bow number," which is the large number positioned on the bow (front) of every boat; basically, for each lower numbered boat it passes, a passing boat will have rowed the course faster by roughly 10-15 seconds.

Another important viewing tool is the "bow ball," also located on the bow (front) of the boat, which mimics the boat's momentum. In a nutshell, the bow ball should not bob or halt, but rather should

travel smoothly. Long and fluid strokes generally make for faster boats.

### **Is there a penalty system used during the race for various violations?**

Yes, and it may effect the final outcome of each event. A penalty time is added to the boat's final time, which could result in drastic changes to the boat's finish place. Examples of a reason to be penalized include failing to remain in the confines of the course, and failing to yield to boats who are attempting to pass.

### **What if a boat wants to pass another boat?**

If a competitor is in a passing position, the slower boat must move or "give weigh" to the side or risk penalty. This is part of the sportsmanship of the sport.

### **How can I distinguish each team or rower?**

Every boat in each race is given a number, known as a "Bow Number." The number will appear on the bow (front) of the boat. All of the bow numbers are listed in the Head Of The Charles program. Many clubs also have identifying marks on their blades (oars) or uniforms—but they may be borrowed equipment from another club. Bow numbers are the most accurate method to distinguish competitors.

### **What's a "coxswain"? Do all boats have them?**

The person who steers the boat and gives commands is called a "coxswain" (pronounced COX-in) or "cox." Only the eights and fours have coxswains.

### **How many boats are in this year's Regatta? People?**

This year there are 1,953 boats rowing at the 47<sup>th</sup> Head Of The Charles Regatta. In total, nearly 9,000 people will be rowing at HO CR this year. Competition includes boats registered from 34 states and 19 countries. Over 10% of all entries are registered from countries outside of the US. The Regatta has more than 1,400 volunteers working in various capacities including race logistics and venue operations.

### **Can anyone compete in the Head Of The Charles?**

Anyone can compete in HO CR, however they must go through an entry process, and for most there is a lottery process. Approximately 33% of all entries are turned away—primarily due to space limitations of the Regatta. Rowers will get a "guaranteed"

entry if they finish in the top 50% of their field in crew events and within 5% of the winning time in sculling events in which they competed the preceding year.

### **Where are the best locations to watch the Regatta?**

Some of the best locations include anywhere along Memorial Drive (Route 2) in Cambridge, the start line at BU's DeWolfe Boathouse, the finish line at Herter Park, and any of the seven bridges the 3-mile course passes through. Actually, there is not a bad seat on the river.

### **What's new for 2011?**

This year the Head of the Charles has a new event division, the Trunk and Arms 2x. The event will be Sunday, October 23 at 8:16AM, the second official race of the day. This is the second race of its kind at the HOCR; in 2010, the Regatta added the Adaptive competitive class with the Legs, Trunk, and Arms event.

Rowers with a verifiable and permanent disability who are unable to use the sliding seat to propel the boat due to significantly weakened function of the lower limbs will be assigned to the TA class according to current FISA classification guidelines by a licensed physical therapist or doctor. There must be a man and a woman in each boat.

### **What else is there to do at Head Of The Charles?**

Back for its third year, The Eliot Bridge Enclosure (EBE) will return to the banks of the Charles as the Regatta's premiere controlled-access hospitality experience. Situated next to the Eliot Bridge on the Boston side, this tent offers gourmet breakfast and lunch buffets from Island Creek Oyster bar as well as two gratis bar tickets. There is also a cash bar available. Enjoy the weekend in style at this private, comfortable venue. Tickets are \$90 per day or \$150 for the weekend and can be purchased at the door.

Two other popular venues worth checking out: The **Rowing & Fitness EXPO** has the best products and services available to live a healthy lifestyle (whether you row or not!). The EXPO is located by the finish line, by Herter Park. **Reunion Village** is a central gathering place open to the public (admission is \$3/person or \$5 for 2 people per day) for schools, clubs and groups to hang out together, while watching the Regatta at a spectacular location—on the Boston side of the Weeks Footbridge, overlooking Harvard University and the famed Weld Boathouse.

## GLOSSARY OF TERMS

**BLADE:** Otherwise known as “Oar,” but most rowers refer to them as blades.

**BOW:** The front of the boat. Rowers are seated facing the stern of the boat.

**BOW BALL:** The white rubber ball on the front end of the boat (“shell”) that protects it, and provides an easy way to see who’s ahead.

**BOW NUMBER:** A numerical sign mounted on the front of each competing boat, indicating the boat’s starting position in its event division.

**COXSWAIN:** He/She steers and acts like a coach by communicating position and strategy to rowers. The coxswain must weigh at least 100 pounds. Coxswains are included in two events: the four with a coxswain and the eight.

**CREW:** The group of competitors propelling and steering a boat.

**DOUBLE:** Boats propelled by two people, each with two oars.

**EIGHTS:** Eight-oared boats with eight rowers plus a coxswain. Each rower has an oar. The boat is 58 feet long and weighs about 210 pounds.

**FOOT STRETCHER:** The place where the rower’s feet are positioned. The rower’s shoes are bolted into the footrests.

**FOURS:** Four-oared boats with four rowers plus a coxswain. Each rower has one oar.

**HEAD RACES:** Races taking place in the Fall season, usually at least 3 miles long, as physiological training for the “sprint” season in the spring. Boats compete against each other indirectly by racing against a clock. They line up in order according to numbers on their bows and start at 10-15 second intervals. Winners of each event are deemed “‘Head’ Of The River” (ex: “Head Of The Charles”)

**PENALTY:** An addition to a boat’s course time as punishment for steering or other racing rule violations.

**PORT:** The left side, when facing the bow (front) of the boat. However, rowers are seated facing the stern, so port is on their right side. The opposite side is “starboard.”

**POWER 10:** A call for rowers to do 10 of their best, most powerful strokes. It’s a strategy used to pull ahead of a competitor.

**QUAD:** Short for quadruple sculls. Boats propelled by four people, each using two oars (sculling). Unlike fours, quads do not use coxswains to steer the boat. Instead, the person sitting in the bow (first) seat steers the boat with his/her feet while rowing backwards.

**RIGGER:** The triangular shaped metal device that is bolted onto the side of the boat and holds the oars.

**SCULLER/SCULLING:** A person or the act of a person using a pair of oars to propel the boat.

**SEAT:** Each person sitting in a boat has a seat number to locate their position within their boat. For example, an Eight will have a bow-seat, 2-seat, 3-seat, 4-seat, 5-seat, 6-seat, 7-seat, and 8-seat (aka “stroke seat”).

**SLIDE:** The tracks at the bottom of each boat where the seats slide back-and-forth as the rower propels the boat with their legs.

**SINGLES:** Boats 27 feet long, 11 inches wide, and weighing some 25-30 pounds, propelled by one person with two oars, also referred to as “sculls.”

**STARBOARD:** The right side, when facing the bow (front) of the boat. However, rowers are seated facing the stern, so starboard is on their left side. The opposite side is “port.”

**STROKE RATE:** Number of strokes per minute the crew takes. Stroke ratings vary from boat to boat, depending on the number of rowers and size of athletes. At the start, the stroke rate will be higher 36 – 38 strokes per minutes for an Eight, then settle at the middle of the race to 32 – 36 strokes per minute. Singles (scullers) will start at 32 – 34 strokes per minute, then settle to 28 – 32. Most rowers will attempt to sprint the final 500 meters of the race.

**STROKE:** The person who is closest to the stern and sets the rhythm for the boat; others behind him/her must follow his/her cadence.

**SWEEPS:** Each person using a single oar to propel the boat, most often in Fours or Eights.

## READING RACE RESULTS

For each event in the Head Of The Charles, there will be two sets of results distributed. The first set, marked “Unofficial,” is the actual time that each boat completed the course. Using a 15-station adjudication system, judges then assess penalties to racers in violation of course rules. Once these penalties are assessed, a second set of results, marked “Official,” will be distributed.

Below is a sample of how the results may appear on the result sheet. Penalties are noted on the right and include the penalty code with the corresponding time addition.

 USRowing will lead this field with Bow 1 and the line-up is rumored to be that of the US Pan American games entry. They'll defend against strong collegiate crews from University of California (Bow 2), Stanford University (Bow 3), Harvard University (Bows 4 and 6), and University of Wisconsin (Bow 15).

48 **Championship Women's Fours** 2:40 PM  
*Course Record: 17:37.4 (Danish Rowing Federation, 1997) Competitors: 20*  
 With a diverse field of Club and Collegiate entries, watch for Brown University (Bow 1) to hold off fast club athletes from Riverside Boat Club (Bow 2), New York Athletic Club (Bow 10), and Vesper Boat Club (Bow 13). University of Virginia (Bow 4) and University of Texas (Bow 20) could also challenge for the win.

49 **Championship Men's Eights** 2:31 PM  
*Course Record: 13:58.99 (USRowing, 1997) Competitors: 34*  
 University of Washington returns with Bow 1 looking to become the first college to win back-to-back titles since Navy (1982-83). They'll have to hold off Harvard University at Bow 2 with a strong home course advantage and the German U23 athletes at Bow 5. USRowing's development entry in this event could also threaten from Bow 4.

50 **Championship Women's Eights** 2:46 PM  
*Course Record: 15:31.08 (London Training Center, 2003) Competitors: 37*  
 In 2010, Princeton University broke a ten-year streak of Women's Championship wins from National Teams or International Crews. They'll look for a second title but will need to hold plenty of water

between themselves and the fast entries from Virginia, Brown, and Yale starting 2, 3, and 4 respectively. Also watch for no fewer than four Dutch entries with ASR Nereus, Skadi, AUSR Orca, and Minerva also eager to take the win.

51 **Collegiate Men's Eights** 3:15 PM

*Course Record: 14:43.373 (Florida Institute of Technology, 2010) Competitors: 40*

This will be battle between Bow 1, Florida Institute of Technology, and Bow 2, Williams College. In 2010, Williams lost out on a three-peat to FIT and will be looking for the comeback. Bow 3, Trinity College will also be on the hunt for reclaimed glory, having won in 2004, 2005, and 2007. University of Virginia (Bow 4) has gained some serious speed over the past few years and will be looking for hardware to take back to Charlottesville.

52 **Collegiate Women's Eights** 3:32 PM

*Course Record: 16:24.219 (Williams College, 2010) Competitors: 29*

Although Williams has been a fixture on the medals' stand at NCAA Championships, capturing their sixth consecutive Division III title in May, they have only seen the HOCR Awards ceremony twice. Setting a new record last year, they will be back to establish a real name for themselves on the Charles. 2009 winners Grand Valley State University is back in the Collegiate event and will be a serious competitor. The second boat out of Williams (Bow 21) will have to keep an eye on GVSU, coming up from bow 23.

53 **Lightweight Men's Fours** 3:50 PM

*Course Record: 15:49.63 (New York Athletic Club, 2003) Competitors: 22*

After pulling off an upset in 2010, Canadian crew Don Rowing Club will be back with a vengeance. They will have to face the 165-pound fury out of New Haven, Yale University, who claimed Bow numbers 1 and 2 in 2010. Speed will come from the north with a gaggle of Canadian crews: McGill University (Bow 3), Ottawa Rowing Club (Bow 14), McMaster University (Bow 16), Club d'Aviron Boucherville (Bow 17), and Argonaut Rowing Club (Bow 21), all strong contenders for the medal stand. Strong showings expected from Georgetown University (Bow 5) as well as hometown sweethearts Riverside Boat Club (Bow 6) and Harvard (Bow 8).

54 **Lightweight Women's Fours** 3:58 PM

*Course Record: 17:54.864 (Undine Barge Club) Competitors: 14*

This race will be electrified by the Philadelphia rivalry of Undine Barge Club (Bow 1) and Vesper Boat Club (Bow 13). All athletes in the German entry, Deutscher Ruder-Club von 1884 e.V., Hannover (Bow

11), participated in the German Championships and will certainly be prepared to race the HO CR. Radcliffe (Bow 7) is the only local crew in this geographically-diverse field. Will their Charles River savvy and new lightweight head coach be enough to best the speed of out-of-towners?

55 **Lightweight Men's Eights** 4:14 PM  
*Course Record: 14:09.921 (Princeton, 2010)* *Competitors: 17*  
 After setting a new course record in 2010, Princeton will return as the favorite. Yale, the 2010 IRA winner, poses a serious threat from the middle of the pack. Princeton should also have a sharp eye on the USRowing crew, a mix of rowers from the 4+ and 8+ that competed at World Championships in Bled, Slovenia, this summer. As always, local powerhouse Harvard will be in tight contention.

56 **Lightweight Women's Eights** 4:23 PM  
*Course Record: 16:14.82 (Argonaut Rowing Club, 1992)* *Competitors: 9*  
 University of Wisconsin, the only college to ever win this event, will be looking for a hat trick. Stanford, the 2009 and 2010 IRA winner, will hope to best Wisco after a 4th place finish on the Charles in 2010. Local lightweights out of Radcliffe (Bow 3) will have home-river advantage, giving them an edge over the out-of-town crews.
